

Today (as Professor Buttons told us in the bible challenge video) we're going to be hearing a lot about God being

sovereign.

Can you remember what that means?
It means God is in charge of

everything!

And our bible passage today shows us why

this is brilliant news.

First, we see that God sovereignly

rules over sin and

circumstances (that means things that happen).

We see in the bible passage how God

brings good

out of evil and mess. It shows he is powerful and personal.

Powerful enough to

control a famine and personal enough to

care about one small family.

The second thing we see is God sovereignly

reveals our hearts

(that means he shows us what our hearts are like). In our passage, Joseph

tests his brothers to see if

their hearts have changed. This is a picture of what God does to us when we are in

difficult situations.

Thirdly we see God sovereignly

rescues his people. He

makes sure his plan happens and the food gets to his people in Canaan.

So, God being sovereign is really, really good news. Did you count how many times Rob said the word sovereign?

Pray with your grown up now thanking God that he is in charge of everything!

Colour the picture to remind you of today's passage.

God is
sovereign

That means God is in charge of EVERYTHING!
