

We can build God's Kingdom by telling people the good news that Jesus died on their cross for their sin. Colour in the picture below of someone sharing the gospel.

Today we are going to be in the book of Haggai.

We are going to be learning about evangelism (telling people about Jesus).

God speaks to His people through His Prophet, Priest, and King

God was bringing His people back to the Promised Land. He had sent the prophet Haggai with a message to His people.

God rebukes His people's priorities

God's people had rebuilt Jerusalem, and their own houses. The people were very

busy but they still hadn't rebuilt God's house (this is called the Temple).

The Temple was important because it was where God lived with His people.

God's people got used to living in God's city without God actually being there with them!

God told His people to put Him first because building His Kingdom was the most important thing they could do!

We don't need a temple now because Jesus died and rose again. Christians now have the Holy Spirit in us (that means God lives

inside each one of us who believe Jesus died for our sins).

That is very good news! We should want to tell people all about Jesus and what He did.

God blesses His people's response

God spoke to His people and they listened and obeyed.

The people understood that building God's Kingdom was the most important thing they could do so He blessed them and told them "I am with you".

Build God's
Kingdom
