

Sin made God's house dirty. God's house was called the Tabernacle. Colour in the picture of the Tabernacle below.

Today we are in Leviticus looking at some more of the **laws** God gave His people.

Remember from last week, these laws taught God's people about **holiness**.

They taught God's people how to be **clean** from sin so they could come near to Him.

The law was a burden and grace

The law of Moses was good. It was

holy and righteous (that means it

was **right** in every way!

But... the law was also very **hard** for
God's people to live under.

God uses the law to show us our **sin**.
And to show what Jesus has done for us.

God wants to bring new life
God made laws about things a man's body does
and things a woman's body does.

These laws were a reminder that we live in a
broken world where our bodies
don't always work properly!

This reminded God's people that we are
fallen and we need God to make
us clean and whole.

Where is the **Gospel** in this
passage?

Sin made God's house **dirty**.
Sin put God's people in danger of God leaving
them!

That is why we need **Jesus**. Jesus
came into this broken and dirty world to make
us clean so that we could come in God's
presence and live as God's
people.

Jesus

makes

us clean

Jesus

makes

us clean
